WASHINGTON, May 24.—The United States Supreme Court again upheld the civil rights of Negroes on Monday nullifying an Oklahoma Statute which discriminated against the rights of Negroes to vote in that state by a 6-2 decision.

Justice Frankfurter delivered the majority opinion in the case reversing a Fifth Circuit Court of Appeals decision rejecting a damage suit filed by a Negro who barred him from voting under the terms of Oklahoma 1916 registration statute.

The two justices, McReynolds and Butler, who dissented in the Missouri case a few months ago, also dissented on the Oklahoma case.

The court held that the registration law runs counter to the spirit of the 15th amendment to the U. S. Constitution which his "concrete procedural requirements which effectively handicap exercise of the franchise by the Negro race although the abstract right to vote may remain unrestricted as to race."

The victory was the second gained by Negroes in their battle for rights granted them by the Constitution.

HACKENSACK'S BABY STATION IN NEW LOCATION

HACKENSACK, May 27—Even greater improvements in child health are expected at Baby Keep, Wall Station 3, First Street School, Hackensack, now that new quarters have been made available.

The Children's Aid and General Welfare Society recently spent several hundred dollars to renovate the place, and provided new equipment.

This station, started 10 years ago, is credited by Health Officers as Van D. Chandler with outstanding results.

The Health Officer said that when Dr. George L. Kingslow took charge 10 years ago, infant mortality in the section was several times that of the rest of the city, and that now it is as satisfactory as in any part of the city.

Activity at the station has been increasing so fast, that the old quarters were no longer satisfactory, and the Children's Aid Society and school authorities, co-operated in making the new quarters available. Last year 177 children and 788 visits to the station.

The station is open every Wednesday from 3 to 5, with Miss Katherine McCarthy and Mrs. Mary Harris, child hygiene nurses, assisting Dr. Kingslow. Children are examined, measured and weighed.

It is not a clinic, and no sick children are admitted. Its purpose is to keep up babies well, not to cure the sick.

The Negro and Democracy

By Rev. C. C. Weathers of State Parole Board

(This address was delivered over Station WHRI last Monday evening at 8:30 - 9:00 o'clock.)

(Ed. Note: Dr. L. Hamilton Garber, chairman of the Newark Labor Board and president of the New Jersey Urban League, was guest speaker over Station WHRI.)

In the world arena of thought and of political action Democracy and Dictatorships are engaged in mortal combat. Democracy is on the defensive. Many important victories have been won by the totalitarian exponents. These victories as we well know are not limited to the realm of philosophical conviction — Democratic nations have succumbed to the attack — overwhelmed by the threat of vast superior force.

There is no democratic people which has not felt the impact of this ruthless force of freedom. We have come to associate this totalitarian, autocratic philosophy with the name of fascism. It represents everything that is the opposite extreme of democracy.

Along with a categorical denial of civil liberties—freedom of speech, assembly and the press, the persecution of racial minorities, suppress the working people. In fact the dictator begins his process of subjugation by suppressing and destroying organizations of labor.

The leaders of the democratic forces of the world have become aware at last of the steps in the disintegration of democracy in these countries where it is supplanted by dictatorships. They know now that the strength of democracy lies in the ranks of its laboring people.

If the working masses of people are to thank the local Boards of Health, Community organizations, the Church, and Press for the cooperation which they have given in making the program possible during the past year.

My observation is that the labor movement is the most potent force at work in dissolving the antipathies among racial groups. The perception of democracies will come from utilizing all agencies in order to make our freedom ring true in this great nation.

Depression is the deadly foe of democracy. Hence it is evidence of our wisdom on the part of leaders in these democratic countries when they set up new safeguards to freedom of action. Herein lies the real significance of the efforts in this country to redefine the rights of labor and to establish agencies of administration having pertaining to those rights.

Mediation and conciliation agencies in the field of labor relations in our democratic America are beginning to recognize that the democratic procedure must prevail in the field of industrial relations just as we have sought for one hundred and fifty years to have it prevail in political relations.

In closing let me quote from Professor Paul Douglas, an eminent political economist of the University of Chicago, who in speaking of the importance of labor in maintaining democracy, said: "The great mass of Americans are properly opposed to the totalitarianism of Communist Russia, but (at least) equally opposed to the totalitarianism of Fascist Italy and Germany."

"Democracy may move slowly, but it makes few mistakes and it can survive its errors since it is the people themselves who make them. Democracy, moreover, protects the individuals since they are the ends and not merely the

NEW YORK MERRY-GO-ROUND

By Manuel Brannan and Chief Cobbs

MEMO OF A WOULD BE COLUMNIST: The firing of former Negro WPA Supervisor James H. Baker, Jr., started a row heard from Sugar Hill to the Battery . . . that leaves only two administrators, instead of eight formerly, jobs, especially white collar jobs, are being constantly closed to Negroes . . . on WPA . . . in private industry, as well as in the government service.

Has Role

Bennie Carter's orchestra and Mercedes are still planning to hear over WABC and pleasant to eye at the Savoy. A very few how to that recently picked 5 and 10c stores for not only hiring Negro clerks but also presenting a personal appearance of the suave Jimmie Lunceford this week, which is not only good business sense but good citizenship as well.

Ethel Waters' latest starring vehicle closed after 161 performances . . . the play will tour this fall. Rumor has it that the producers of "The Swing Mikado" are anxious to add Ethel to their cast . . . to compete with Bill Robinson's "Hot Mikado" on the same street. Juanita Hall will direct the Federal Negro Melody Singers at the World's Fair this week.

Hall was formerly the assistant conductor of the Hall Johnson choir and is now under the WPA Music Project.

Ellie Fitzgerald to record for Decca "I've Got to Have You" . . . the new album was recorded on W. 47th street and Broadway for listening, but was freed when he told the judge he was watching an electric sign limiting his dance steps, Mr. and Mrs. Lacy F. Brannan of New Jersey visiting the Sugar Hill wedding of Jesse Miller and spouse. Father Divine's intention to have a "heaven" in the New York City district of Yonkers has reached a snag with the wealthy residents using all sorts of methods to check that ambition.

The new added state tax on all liquors has suddenly quenched the thirst of our frequent visitors to the town's watering holes. Mothers Day sale of flowers proved fatal to many peddlers on the avenue . . . the "Black Messiah" an all Negro production by Dennis Donohue and James H. Donohue will open at the Nora Bayes Theatre on 44th street this Friday.

ASK U.S. PRO INTO LVL OF TAXI

Attorney General Urged to Act

WASHINGTON, May 24—Representative Vito Marcantonio, New York, president of the International Labor Defense, demanded in a letter to Attorney General Frank Murphy Monday, that the government investigate the lynching of Lee Snell at Daytona, Fla., on April 28 and prosecute his slayers.

Snell, a taxi driver, was arrested after an automobile accident in which a 12-year-old white boy was killed. The boy's brothers, Everett and Earl Blackwelder, seized Snell from the police who were removing him to be taken to the county jail. Snell was then taken to the county jail and later to the state prison.

The Blackwelder brothers have been arrested and charged with the murder. Marcantonio said the delay in arresting the brothers and other incidents connected with the case might "easily be construed as indicating collusion between the police and the lynchers in the murder of Lee Snell."

ASBURY PARK HOUSING PROJECT

ASBURY PARK, N. J., May 24—Official officials of this resort are alert to the problems of the community's Negro population and are engaged in an extensive program designed to improve living conditions among dwellers in outmoded tenements here, with the entire program being carried on through Asbury Park Housing Authority.

The Aveman Housing Board, appointed by Mayor Clarence B. F. Patrick and members of the city council in April, 1937, is about to begin the construction of a vast \$500,000 housing plan which will furnish new living quarters for 125 Negro families at rentals in keeping with the income brackets of the group.

Dr. Ernest A. Robinson, well-known Negro physician and a leader in the community life of Asbury Park, is an active member of the Housing Authority named by Mayor Patrick. Dr. Robinson is known for his extensive studies of Negro problems, particularly the housing situation which confronts members of his race earning small incomes.

Other members of the Housing Board serving with Dr. Robinson are Michael Weinstein, chairman of the group; James A. Sutherland, building contractor who erected many of Newark's skyscrapers; Laurence C. Maher and Charles Jones, labor leader. Charles G. Lumley is executive secretary.

Signal recognition to the years of civil service rendered by Dr. Robinson to the community is expected to come here within the next few weeks with the formal naming of Asbury Park's three-quarter of a million dollar housing project by the Asbury Park Housing Board, which has indicated that the "race site" will be named "Elizabeth Robinson Village" in honor of Dr. Robinson's mother.

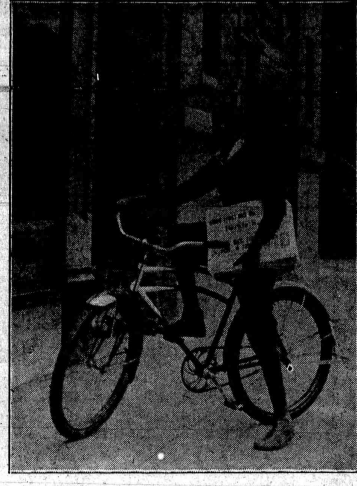

The housing construction, which is expected to be gotten underway within the next month, will include 125 apartments, all of modern design and fire-proof construction, to replace the present obsolete buildings now occupying seven and one-half acres on the city's West Side, adjoining the Springfield Avenue section.

The plot will contain extensive park areas and arrangements are being made to include a community house devoted entirely to the needs of the Negro population, as well as quarters for social service and health agencies.

The entire plan is financed by a grant from the United States Housing Authority, aid in the form of finances and enabling legislation passed by Mayor Patrick and the city council. Through the Mayor and Council, also provide essential services, the buildings are erected, the utilities are installed, fire, flood, refuse removal, light, etc.

A unique feature of the Asbury Park housing project will be the special installation of a central heat electric plant to supply electric light and current for cooking on electric ranges, to tenants in the apartment units. The plant installation is expected to result in utility rates to the tenants far below the present cost of current in this section.

PROF. EINSTEIN PAYS VISIT TO BORDENTOWN

BORDENTOWN, May 24—The Manual Training School at Bordentown, New Jersey, was honored last Saturday by a visit from some of the world's most distinguished leaders who gathered in the auditorium to hear the singing of the Handel oratorio by the Bordentown glee club and student body.

The group included Professor Albert Einstein, famous for his Theory of Relativity and the world's outstanding scientist; Dr. Thomas Mann, the most important literary figure of our age; Dr. Erwin Panofsky, the most widely recognized authority on the arts of the Middle Ages and former professor at the University of Hamburg, Germany; Dr. Hans Szwarc, outstanding scholar in ancient art; and Dr. Abraham Flexner, head of the Institute for Advanced Study, in Princeton, New Jersey, from which all the foregoing came and formerly of the Rockefeller Institute.

In addition to these world figures there was also Elmer Zimbalist, ranked as one of the world's six leading violinists. Professor Einstein and Dr. Mann are holders of the Nobel Prize, the highest achievement award which can be attained.

These distinguished persons were brought to the Manual Training School through the influence of Mrs. Abraham Flexner of Princeton, who recently heard the Bordentown glee club in a recital at the Barnes Foundation in Merion, Pennsylvania.

It was stated that she permitted to bring her associates to the school to hear for themselves the singing of the oratorio, and to experience the deep pleasure which comes with the proper singing of the spirituals.

PROSPECTUS
Progressive action is both the motive and objective of democracy. If not "truth," then the SPIRIT OF TRUTH will make men free and creative. They serve RACE or GROUP or SELF best who, like Roger Williams, would claim for themselves no right or privilege which is not granted to all men equally.

Vol. XII Saturday, May 27, 1939 No. 16

The Civil Rights Bill
Hotel, restaurant, and independent theatre men are making themselves ridiculous by opposing the proposed amendments to the New Jersey Civil Rights Bill. Their opposition is ridiculous in view of our protestations of democracy, and is, besides, particularly vicious in the light of what is happening to the theory and practice of democracy in the world today.

The proposed amendments to the Civil Rights Bill would allow Negroes who are discriminated against in public places to bring suit for denial of rights, and would make damages payable to individuals bringing suit.

At present damages are awarded to charity instead of individuals.

There is no reason opponents of these new proposed features of the bill have shown yet why individuals whose civil rights have been denied should not personally receive payment of damages.

Nothing could be more absurd than the argument advanced by hotel interests against changes in the bill—the argument that Negroes would make a racket out of going into places where they are not desired just as they could institute suit.

This argument is absurd for at least two good and sufficient reasons.

The FIRST IS THAT THE PLAIN INTENT OF A CIVIL RIGHTS LAW IS THAT IN PLACES OPEN TO THE GENERAL PUBLIC THERE IS NO SUCH THING AS PERSONS NOT BEING DESIRED MERELY ON ACCOUNT OF RACE.

THE SECOND IS, THAT THE WAY TO AVOID BEING SUED IS TO AVOID DISCRIMINATION.

The very idea of well-behaved citizens not being DEIRED in public places is a PREJUDICE which the law must regard with contempt.

To oppose the new features of the bill which insure the collection of personal damages on the ground offered by the hotel men is a stupid begging of the question. It is as though they opposed the bill for no other reason than it gives offended citizens an effective means of redress.

What in heaven's name is the purpose of the amendments if it is not a more effective means of bringing the offenders to task through facilitating the process of redress open to the offended?

Let all of us who favor tipping teeth in our Civil Rights bill rise above party lines and give full support to a bill for the rights and honor of over 250,000 colored citizens.

This is no time for Republican or Democratic partisan politics. The Civil Rights measure is too important for party politics. The principles of democratic government itself are at stake.

The Grand Jury Retires

Nothing could more fittingly follow an editorial on the CIVIL RIGHTS measure than a comment on the presentment handed up by the retiring April term grand jury of Essex County calling on everybody to be on guard against dissemination of racial and religious propaganda in this state.

The presentment is the result of an inquiry into the distribution of anti-Jewish pamphlets by two Bloomfield men. The presentment reads in part:

"We believe that in this day when democracy is being challenged in powerful quarters, it is necessary for us in America to preserve the faith in human rights which characterized the founders of this country. . . . We feel strongly that any prevalence of racial and religious intolerance threatens to undermine these rights, to introduce vicious divisions into our community and to menace that unity from which 'he nation must draw its strength.'"

How true! How true!

And this is precisely what we have been saying in these unms from week to week.

We would like to add two brief comments here:

First: In an atmosphere of race prejudice, there is no such thing as restricting the poison of prejudice to any one people or race. This position is no respecter of color or race; it will not be quarantined.

So let those with eyes, see . . . and let those with ears, hear, what so utterly concerns them.

Second: A democratic government is a democratic government only as it functions as a democratic government. A bill of rights is a bill of rights only when it guarantees the rights of all the people—black people, Jewish people, Catholic people, Protestant people, all the people. The worst enemies of democracy are those persons who talk it but refuse to live it.

Let those who will, give audience here.

We append this note:

Democracy is a stern discipline—as stern as law itself; but law conceived of, and for, the people.

Democracy is a schoolmaster whose ideas can bring men to fulfillment, and without whom men are laggards who cannot move to their higher destiny.

Without the broad expansive concept of law which is democracy's men can have no real liberty.

And real liberty just consists of the capacity for mutual respect, a functioning belief in the essential dignity and worth of people, and the spirit of fairness and good will.

FIRST BATTALION OFFICERS'

By Clifford R. Moore
Sgt. C. C. Bn. NIG
Camden, New Jersey

During the regular drill period map lecture on Military Scouting 16, Sgt. T. N. Rivers conducted a map lecture on Military Scouting and Patrolling. Lt. George Eggleston taught marksmanship. Sgt. C. R. Moore led the combat principles. The Company is now drilling in field uniforms. Lt. Shelton H. Sharpe, Jr., company supply officer, has been in training in preparation for the annual summer encampment.

The Officers' conference will be held in Newark on June 4. There will be several important topics to be discussed, an outstanding problem being the lack in the annual appropriation of Battalion funds. Due to an unknown circumstance, there is a shortage of \$5,000 in Battalion funds. This has necessitated the personnel drilling for the State Legislature, their normal pay. The combined Commissioned Officers and Non Commissioned Officers Associations have been invited to have this appropriation restored. The Officers met with a committee from the State Legislature seeking a special appropriation but nothing definite has been done. Capt. Berkeley A. Trent, commanding officer of Co. D, is chairman of the joint committee.

The Rifle Team of Co. C, First Battalion, New Jersey Guard, will fire an invitation match with Co. I, 114th Infantry, N.J.N.G., at Camp Clark, New Jersey, on June 10. The trip was for benefit of the youth in education. The trip was for benefit of the youth in education.

WHY THIS SEGREGATION AND OSTRACISM?

No one is more clearly established by history than that HATRED and FORCE complicate race relations and that cooperation among men of character, goodwill and intelligent comprehensive knowledge of racial problems will alter this condition.

Therefore there is a great need that facts now available, concerning the advancement of the Negro in education, professional accomplishments and economic wide independence in character be studied by men who enjoy political rights and privileges. We should be proud of our race for some day we will triumph over segregation and ostracism.

Race must recognize race and the battle between them must be amicably settled. Who knows in years to come that the American race may yet subscribe to the brotherhood of man in its entirety? There is a Negro culture in America that surpasses all races and produces professional men, poets, artists, a credit to the race itself and to the American civilization.

We do they remember in the American Revolution War, that the Negro soldier fought, bled and died for this Independence and was highly praised by General Washington and Lafayette for their bravery and usefulness? Have they forgotten that among the first to shed blood for this country was a Negro, (Crispus Attucks) in the streets of Boston?

Have they overlooked Peter Samen, Patrick Montgomery and a score of others? They represent Fathers of the Revolutionary War, who with the name "Daughters of American Revolution" is derived. Away with this camouflage and let us meet face to face, man to man, and settle our differences, friendly, unbiased.

We do not seek "social equality" but we do demand our "Civil Rights." A right to think, act, and enjoy as any other citizen. A right to buy when we mean permit. A right to sit in any public place where our means permit. A right to hire, or permit to show in any public place if our display furnish talent, and reputation for such an exhibition.

Show me the white man who would disdain a colored actor for not appearing as a cook or in a calico frock and I will show you the class of white man who would have you appear befitting the character you are able to proclaim.

To sum it up in a few words. We want Civil Rights in its entirety regardless of race, color or previous servitude. Then and then alone we will be able to proclaim:

OUR HOME, OUR COUNTRY, OUR FLAG.

The Reader Speaks . . .

THANKS WORKERS
I thank each and every one of you, principals and patrons, for your presentation and support of this musical entertainment. I am told that it was one of the best ever presented in Montclair by local talent. I was not advised that I was expected to speak, but I wanted to be there just the same. I am so sorry that I missed it. I did my best, but professional and other pressing obligations made me late. However, I am glad to say that I arrived in time to receive the donation and to take Miss Caesar and another of the artists home.

We thank you for the sum of \$37.76, thus far in hand, as your contribution to the Forthby X-Ray Fund for the Community Hospital. Miss Caesar was a patient in the hospital when this idea was hatched. Miss Davenport has also received service in the Community Hospital, and has many times shown evidence of her appreciation. It is now our time to express our appreciation for the interest shown by these two patients.

We need this machine to carry to the bedside of patients who need x-ray examinations, but are too weak or ill to be moved. It will cost something over \$500. We asked 10 clubs to raise \$50 each for the purpose. The amounts thus far raised are as follows:

Women's Auxiliary	\$25.00
Burial Aid Society	50.00
Health Unit	50.00
Elizabeth Unit	50.00
Scribblers	50.00
Mrs. Stella Scroggs	50.00
Miss Ethel Caesar's Benefit	31.76
Total	\$377.76

These contributions make a total of \$388.01. We hope soon to have this much needed piece of equipment.

With sincere appreciation to all who have helped as indicated above.

Very truly,
JOHN A. KENNEY,
Medical Director.

NIGHTLIFE WITH THE NIGHTLIFER

Here is a letter received from a reader in Princeton and is self explanatory:

"After reading your article about a certain group of musicians coming out of Newark and playing in our district for the first time of \$14 per night, I'm glad to know we have some friends in Newark who seem to know and realize that the present day musicians are having a hard enough job finding work at a fair price and holding it without having to compete with outsiders who come in and under bid us.

"We have been fortunate enough to get the minimum of \$3 per man, transportation, but since our town is just getting started, we shall see my friend, from your town blew in with his gang all that we can hear is 'why we can't get — our of Newark with four men and an entertainer including transportation for \$14.

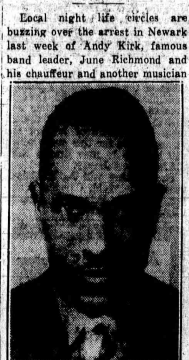

"I just want to let you and your readers know that last year and that same job we received \$3 per man, transportation, but since our town is just getting started, we shall see my friend, from your town blew in with his gang all that we can hear is 'why we can't get — our of Newark with four men and an entertainer including transportation for \$14.

"Again I want to thank you for your splendid treatment of this situation in your recent column and I hope by this time that your friend has read and re-read it and will wake up in the morning in a little bit wiser. He should realize that with each tap room and tavern having a music box in their place it makes it twice as hard to get in with live music. There is work enough for all of us, so let's stick together home or abroad for one price and I am sure that then we can all work in harmony." Central Jersey, N. J., Thanks for your letter Central Jersey just I want to just straighten you on one thing Tuesday in the early bright and the price cutter as my friend.

"That is all wrong for Nightlifer has never been the intimate of any cab and never will be. Nightlifer has been one of the most consistent boosters for the musicians and that is the reason they will be so brainy today who is the narrow vision and selfless of some people engaged in work who work below the 'red scale'... There will be all cheap entertainers, and musicians and that is the reason they will be so brainy today who is the narrow vision and selfless of some people engaged in work who work below the 'red scale'... It was quite decent of Central Jersey not to mention of asking for his men for one night name for I am sure that moment."

Andy Kirk Arrested

Noted Band Leader Is Arrested On Tip Given In Poison Pen Letters

ANDY KIRK

Local night life circles are buzzing over the arrest in Newark last week of Andy Kirk, famous band leader, June Richmond and his chauffeur and another musician.

A splendid program of entertainment has been arranged by Milton Pittman, popular pianist and emcee who is in charge of the affair. Among those scheduled to appear on the elaborate bill are Little Dukes, Arthur Terry, Enoch Hawkins, Satchell Robinson, Billie Semmond, Naki Sacki Boys, Ruby Rainey, Willie Dixon, Sade Mathews, Genevieve Turman, Celeste Jones, The Gorgeous Hussy, Belle Williams, George Rollins, Bill Robinson and a host of others. A band composed of the leading musicians of the State will play for the pleasure of the patrons.

Tought for it like a cornered rat. After they promised they would quit their back. And show you points concerning another fact. Every night at club room, church, and bar. They spoke of the colored man as if he was some big star.

Now that election is over I wonder will the winners think that they can't keep making promises 'cause they are beginning to sink. We want results for our race and our vote. Or when they start promising again we will start putting on our coat.

Elaborate Party For Louise Gordon At Plaza Friday Nite

The Rialto will have a holiday Friday night to pay tribute to Louise Gordon at a farewell party for the popular night club star at the Boston Plaza. Sonny Berry is donating the use of his famous niteroy for the affair and most of the leading tavern owners and entertainers will be on hand to honor Louise.

by local police on the tip furnished by an anonymous letter which charged Kirk as being an importer of reafers and other forms of dope. He was detained in jail over night and released when his identity became known.

Kirk and his party were extended apologies by the police when they were released by the department which immediately started a determined drive to apprehend the poison pen writer.

The arrest was not the outgrowth of the drive by local police and Sheriff Young to smash the reefer racket in Newark.

Hot Show At Paradise

Satch Robinson, Genevieve Turman, Tit Henderson and Hazel Hannah Starred

Patrons of Daves and Maney's in Orange are being treated to a fast moving show that is most capably emceed by the versatile Satchell Robinson and starring Genevieve Turman, Hazel Hannah with Dick Mathews and his band. Genevieve Turman scores with a beautiful rendition of "Deep Purple" and gives further evidence of being the best singer of sweet songs in this section.

Satchell manipulates some intricate steps and gives a dance routine that never fails to please his audience. The Satch is just about one of the best tap dancers performing in North Jersey night clubs. He certainly makes one of the neatest appearances on the floor.

Bazel Hannah still pleases the customers with her stip teasing and alluring ways.

A girl who is destined to become the hottest number in local night clubs is Tit Henderson, shake dancer, who seems to get as much pleasure out of her work as the patrons. Tit is one of those performers who by force of personality and ability is bound to get places in the game.

All in all Satchell and his show is just about one of the best seen in a local night club in many moons and is worth anyone's time to see.

North Jersey Society Favors Frank Gibbs Band For Dancing

Frank Gibbs and his popular orchestra is rapidly gaining the distinction of becoming the society orchestra of North Jersey. Frank and his boys are most popular with the local society folk and are usually the featured band at most of the formal dances given in this section.

Gibbs' unique style of music has commended itself to society dance lovers who refuse to bring name bands in to play for their swanky affairs. Frank believes that his present aggregation is the best he has ever assembled and feels that at last he has a band that will soon rank with the best name swing units.

Theatrical Guild Seen As Hope For Local Performers

Because of the vicious price cutting and uncertain working conditions there is strong talk going the rounds among North Jersey musicians and entertainers of forming a guild among the group. Such a move it is believed would afford protection to the entertainers, musicians and tavern owners.

The Inter City Swing Club was originally conceived to standardize the prices among the musicians and entertainers, and met with a small amount of success but this organization is said not to fully meet the situation.

If such an organization were established it would set hours, wages, conditions and qualifications of performers. There would be no contract jumping and this would prove of an advantage to both the employees and employers. Sentiment among the performers is strong for such an organization at this time and many see in the move the last vestige of hope to make entertaining a profitable means of livelihood.

Borican Guest At Royal A. C. Anniversary

By Nathan O. Gumba, Jr. RED BANK, May 24.—"I just couldn't miss this dance," exclaimed Johnny Boriche, sprinter and honorary guest of the Royal A. C., who was swarmed by ardent admirers at the River Street Public School on Friday night when nearly 800 supporters representing every shore town turned out in numbers and swayed to Al Henderson's swing-population at another successful Spring Anniversary Dance of the popular Fair-Haven Royal A. C., Inc.

Upon questioning Boriche hinted that he may sail for Paris, France soon and voiced that his recent sprint defeat didn't mean a thing. "The trouble with me," said he, "is that we talk too much; that's why we don't get any."

DRAWN-OUTS STAR IN MEET

In the Groove . . .

By BUTTS BROWN

This scribe has contended all the time that Dick Lundy is the greatest manager in Negro baseball and if anyone needs any further evidence let them take the case of Leon Day.

Day's arm went bad last year and he was of no service all season. When he went to training camp this Spring he was the big problem in the Eagles' pennant hopes. Lundy nursed Leon along, not permitting him to throw hard or pitch in any games.

The patient handling even got on Day's nerves and several times he cast evil glances at Lundy when he was kept from cutting loose. Finally Dick warmed him up and found him loose in his wrist and gave him the word to go in and throw as hard as he liked, in batting practice and the boys couldn't do anything with him. The following Sunday he started and won, pitching six innings.

There was a look of surprise on most everyone's face, the Sunday when Day was announced as the opening game pitcher. Though knocked out of the box Lundy told Day he would win the next time out against the Stars and the Eagles' fire ball hurler shut out his foes last Wednesday 1-0, winning his own game with a two base hit. Day was almost rained last year, but he has been saved by Dick Lundy this season, and with him the Eagles' pennant hopes.

John Borian was lauded high and handsome this Winter for his track feats . . . that was when Johnnie was winning. The Negro press helped in the building up and Borian, never a fellow to run from a photographer, or newspaperman, loved it. But Johnnie will find out that fame is fleeting and unless he begins to regain his winning form, he will be torn down just as fast.

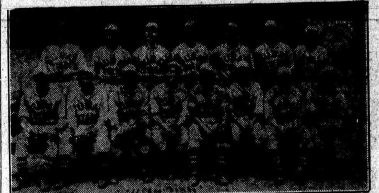

The Philadelphia papers are jumping all over the Manleys for not permitting Ches Williams to play against them during the recent series with the Philly Stars. Why they should become so excited over this matter is rather confusing, for the Manleys certainly acted right in this case. Ches is rightfully the property of the Toledo Crawfords and does not belong to the Philly Stars and had no business even being in Newark with them . . . much less playing. Gottlieb should have ordered Ches to report to Toledo instead of holding him around and asking other owners to be guilty of breaking faith with the new league entry by allowing Williams to play against them.

We note that Cam Posey has settled with Toledo for Bankhead and it was a fair deal. Posey gave the new team Jim Williams, hard hitting outfielder, Carley, a more than average second baseman, Patten, hard hitting catcher and a pitcher yet to be named. Now all Posey has to do is send Whitley back to the American League and his skirts will be clean, otherwise he should be made to do so by the other owners. This scribe has been like a lone voice crying in the wilderness for the owners of the American and National Leagues to exercise some sense and select a Commissioner for both organizations. To date our plea have fallen on deaf ears, but it is encouraging to note that lately other sport writers are taking up the cry and probably in the near future the owners will see the error of their ways and relent.

In the meantime they are in for some very embarrassing moments. This was indicated here last Wednesday when the Philly Stars disagreed with a ruling of umpire Frank Forbes and announced that they were playing the game under protest. Who will decide the issue? Will it be the Grievance Committee, composed of Manley, Gottlieb and Tom Wilson? Manley owns the Eagles and Gottlieb the Stars, the two teams involved. The alternative in such a case would be to have the matter go before a board without Manley or Gottlieb a member. Wilson has been guilty of grabbing players not belonging to the league. Posey has players who belong to the American League and Toledo could hardly act, for the Philly Stars have a player belonging to them and surely the Stars wouldn't want a Toledo representative to decide any issue in which they were involved.

If any further proof was needed to show the necessity for a Commissioner and a league offered by men with no interest in the teams, this last situation offers conclusive proof of such a need.

Cuban Stars Will Play Here Sunday

The 1939 Cuban Stars team—The Newark Eagles hit a four-game winning stride taking doubleheader victories from both the Philadelphia Stars and the Baltimore Elite Giants at Ruppert Stadium, home of the International League champion Newark Bears. Interest is running high for the Eagles series with the reorganized Cuban Stars pictured above this Sunday at Ruppert Stadium. The teams will play a Negro National League twin bill with the first game starting at 2 P. M.

EAGLES SNARE DOUBLE HEADER

Ruppert Stadium, May 24 — Sensational fielding and pitching featured the Newark Eagles twin victory over the Baltimore Elite Giants at Ruppert Stadium Sunday before 5,000 fans. The Lundy-men came through with a four-run rally in the eighth inning to win the opener 4-0 behind the two-hit pitching of Jim Hill. The score of the nightcap was 4-3.

The first game was a brilliant hurling duel between Byrd and Hill until the fatal eighth. Byrd had limited the locals to three scattered hits until the blow-up. Though pitching under the evident pain of a sprained ankle, the Elite hurler carried on like a Spartan and deserved a better fate. But for an error by Hughes the game would have probably gone into extra innings. Jim Hill hurled one of the best games seen in the local park this year and coupled with his hitting, stamps him as

a most valuable man to the Eagles.

After filling the bases twice on account of wildness, James Brown still stuck to his guns and brought the Lundy charges home in front in the nightcap. With the fans yelling to take him out, Manager Dick Lundy refused to be moved and kept his latest hurling find on the mound.

Brown, left 8 men stranded on bases in two innings and hurled two-hit ball for the six innings he worked, and those two hits came in the last inning.

SCHOOLBOY STARS FEATURE IN TRACK MEET

Colored schoolboys starred in the various track meets held throughout the State last Saturday. In the Shore Conference Meet Viron Jones, speed demon of Neptune High, won three first places.

He captured the 100-yard dash in 10.4, 220-yard dash in 23.2 to set a new shore meet record for the event and also set a new record in the broad jump with a leap of 21 feet 6 inches.

The real sensation of the meet other than Jones' three first places was the running of John Williams, unknown 440-yard star of Leonardo High, who set a new record in this event by speeding over the distance in 55.4.

Hoax Brown, All-State basketball star of New Brunswick High, was the star of the State Conference meet when he capped the 100-yard dash in 10.4 seconds and the 220-yard dash in 22.2 seconds and finished third in the broad jump.

Also starring in the Shore meet was Joe Bristow of Long Branch who won the 120-yard high hurdles in 15.8 seconds, the 220-yard low hurdles in 25.8 seconds and the high jump with a leap of 5 feet 8 inches.

Participating will be Montclair, Orange, Plainfield, Camden, Trenton, Newark, Princeton, Atlantic City, and Bordentown.
